CNC Lathe Products:

Car parts

Machine

Gym Brake

Lathe+Milling

All kinds of CNC machinery, automobiles, oil pressure, gear and other parts. The processing ID 3mm to OD 560mm, the max length is up to 1 meter, total we have 24 CNC lathes inside our factory.

Processing Machines, Equipment:

Height range 700mm

Automatically feeder

1. Could cut length 1m material and do the treatment directly by one step.
 2. Reduce the geometric tolerance
- Ex. Gear automatically feeding into the machine-> Appearance processing-> Finished products-> Taken out from the receiving box directly.

Horizontal Lathe

Double-spindle Automatically Lathe

Vertical Lathe

QC

What we may work out, what we inspect it accurately.

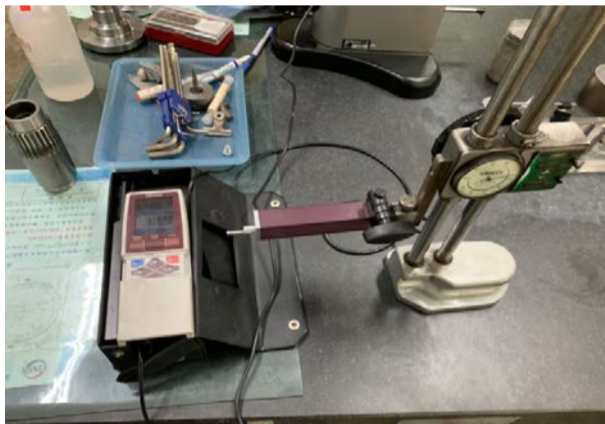

Tolerance OD and ID 0.01mm.

Our people in charge of the inspection work update and take professional courses regularly.

Independent QC room.

Contact measuring machine

Surface Roughness Tester (Mitutoyo)

Two-dimensional height gauge (Trimos)

ID micrometer

(Cursor) Caliper Gauge TESA/Mitutoyo

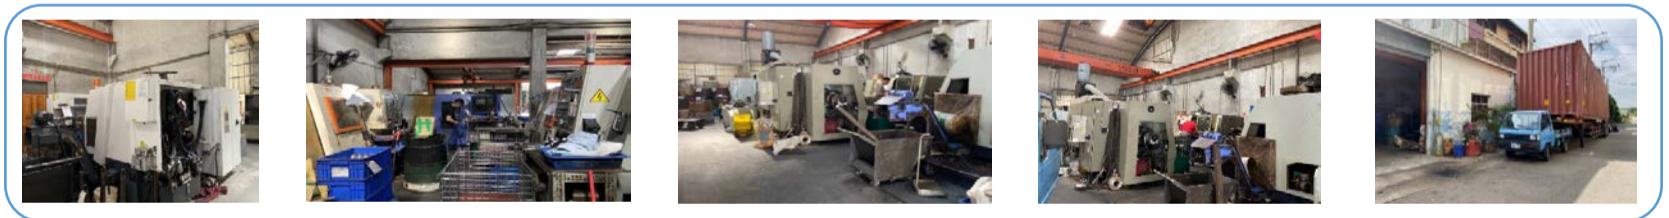

Precision block gauge Mitutoyo

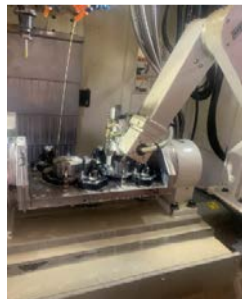

Mitutoyo

OD Centimeter

Milling

Automatically machines controled, inspected by phone, computer

Milling QC

Projector and three-dimensional
